BUILDING ASSOCIATIONS

And Banks-Some Interesting Figures Showing the Condition of Those in Kentucky.

Secretary of State Headley has completed a summary of the statements of the banks in Kentucky.

The reports show 167 banks in operation in the State, and since the reports were called for, the Bank of Columbus, which suspended last fall, has resumed business, and a new bank has been organized at Lewisburg.

The reports for the last quarter are made as of March 26, 1894, and the summary is as follows:

Company of the Compan		
Liabilities,		
Capital stock	5,598,043 23,214,050 3,798,696	94

Loans and discounts... Due from banks...... Cash and cash items...

The thirteen private banks in the State are required under the law to report semi-annually, and as their reports are made in July and January they are not taken into account when comparing the above figures.

The reserve which the banks are required under the law to keep on hand is represented by the term "cash and cash items" and "due from banks." The law requires Louisville banks to keep a reserve of 25 per cent. of deposits, one third of which must be in money; and fined to his bed for several weeks and be reduced fully 45 minutes." banks in other places in the State must does not improve. keep a reserve of 15 per cent., one third of which must be in money.

The reports show that this has been strictly complied with, and that many of them have more than one half of their reserve in money.

The following is the summary of all to return it and save trouble. the building and loan associations in the State, which is made up from reports similar to those made by the banks:

Report from Building and Loan Associations of date December 31, 1893 :

FASTER TIME.

That's the Object of the C. and O.'s New Train Between Cincinnati and Washington.

"The new through vestibuled passenger train that the C. and O. will put on between Cincinnati and Washington City May 13th will eclipse anything for time and accommodations that has yet been attempted in the way of transportation between the two cities," says the Enquirer.

"When this service was first conceived there was a doubt whether the time of the old through trains could be shortened and at the same time maintain the standard and excellence of the service, but the trial trip between Cincinnati and Huntington, W. Va., a distance of 162 miles, was most satisfactory and demonstrated that the proposed through train will be a oweth's drug store. Call and get prices. great improvement over the old service and a convenience to travelers that will become popular and be appreciated.

"With two stops between Cincinnati and Huntington, the train arrived at the Miss Tola Orr's friends will be glad to latter place at 3:55 o'clock, 30 minutes ahead of the scheduled time of the present fastest train.

"It is the intention of the company to run the new train through to Washington with but two stops between Cincinnati and the Capital City, and the run-MR. J. S. Goff, of Dover, has been con- ning time between the two points will
